Criteria For Success:

They like making an impact with their job or work

Needs

- Access to marine environments for observation and study
- Quality education and resources about marine life and ecosystems
- Opportunities for active participation in conservation efforts

Wants

- Opportunities to engage in immersive experiences with marine life, such as swimming with dolphins or observing rare species in their natural habitats
- Access to advanced technology and equipment for better exploration and understanding of marine ecosystems
- Support for the establishment of marine protected areas and the enforcement of regulations to ensure the conservation of vulnerable species and habitats

Values

- Conservation
- Respect for nature

Fears

- Pollution
